

## **Appendix 1: Implementing Common Core and Essential Standards**

### ***Essential Standard: Biology 2.2***

Students will understand the impact of human activities on the environment (one generation affects the next)

#### ***Objectives***

Biology 2.2.1: *Students will infer how human activities (including population growth, pollution, global warming, burning of the fossil fuels, habitat destruction, and non-native species) may impact the environment.*

Biology 2.2.2: *Explain how the use, protection, and conservation of natural resources by humans impact the environment from one generation to the next.*
