Implementing Common Core Standards

Please Note - As a Technology Facilitator I will incorporate work from my curriculum unit with the following district focus Common Core Standards through classroom teachers' selected readings and assignments for student work.

Students will read closely to determine what the texts say explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

Students will read and comprehend complex literary and informational texts independently and proficiently

Students will write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence

Students will write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization and analysis of content
