Climate Refugee Stories

Home | About | Archive | Toolkit | Stories

By 2050, up to 1 billion people may be displaced by climate change ...

How are communities responding?

Climate Refugee Stories is a public history project about migration, borders, and the fight for climate justice

WHO ARE “CLIMATE REFUGEES”?

climaterefugeestories.com

- Local?
- Cross-border?
- History? (*all the -isms*)
- Responsibility?
- Land & Indigenous Rights?
- Environmental Racism?

India & Bangladesh:
Tanaya

US & Education:
Hania

The Bahamas:
Sienna

Ghana: Christine
@ NEDAfrica

Marshall Islands:
Bo Thai

GOALS & ACTIONS

Climate Justice

- Who are Climate Refugees?

Combat fear and difference

- Denialism and Disinformation
- Citizenship & Belonging
- Eco Anxiety & Eco Grief

Education

- Stories & All Disciplines
- Community & Student-Led
- Sustainability and Resilience
- Telling Your Own Story

The #ClimateMigrationSyllabus

The [#ClimateMigrationSyllabus](#) is a crowd-sourced, expanding set of resources for further reading, research, and action. This syllabus was initiated and built by students in Tina Shull's Fall 2019 course "Ethnicity, Migration, and Rights 135: Climate Migration: Histories, Borders, and Activism" at Harvard University. If you have resources to share, please email climaterefugeestories@gmail.com.

Climate-Induced Migration

A High School Curriculum

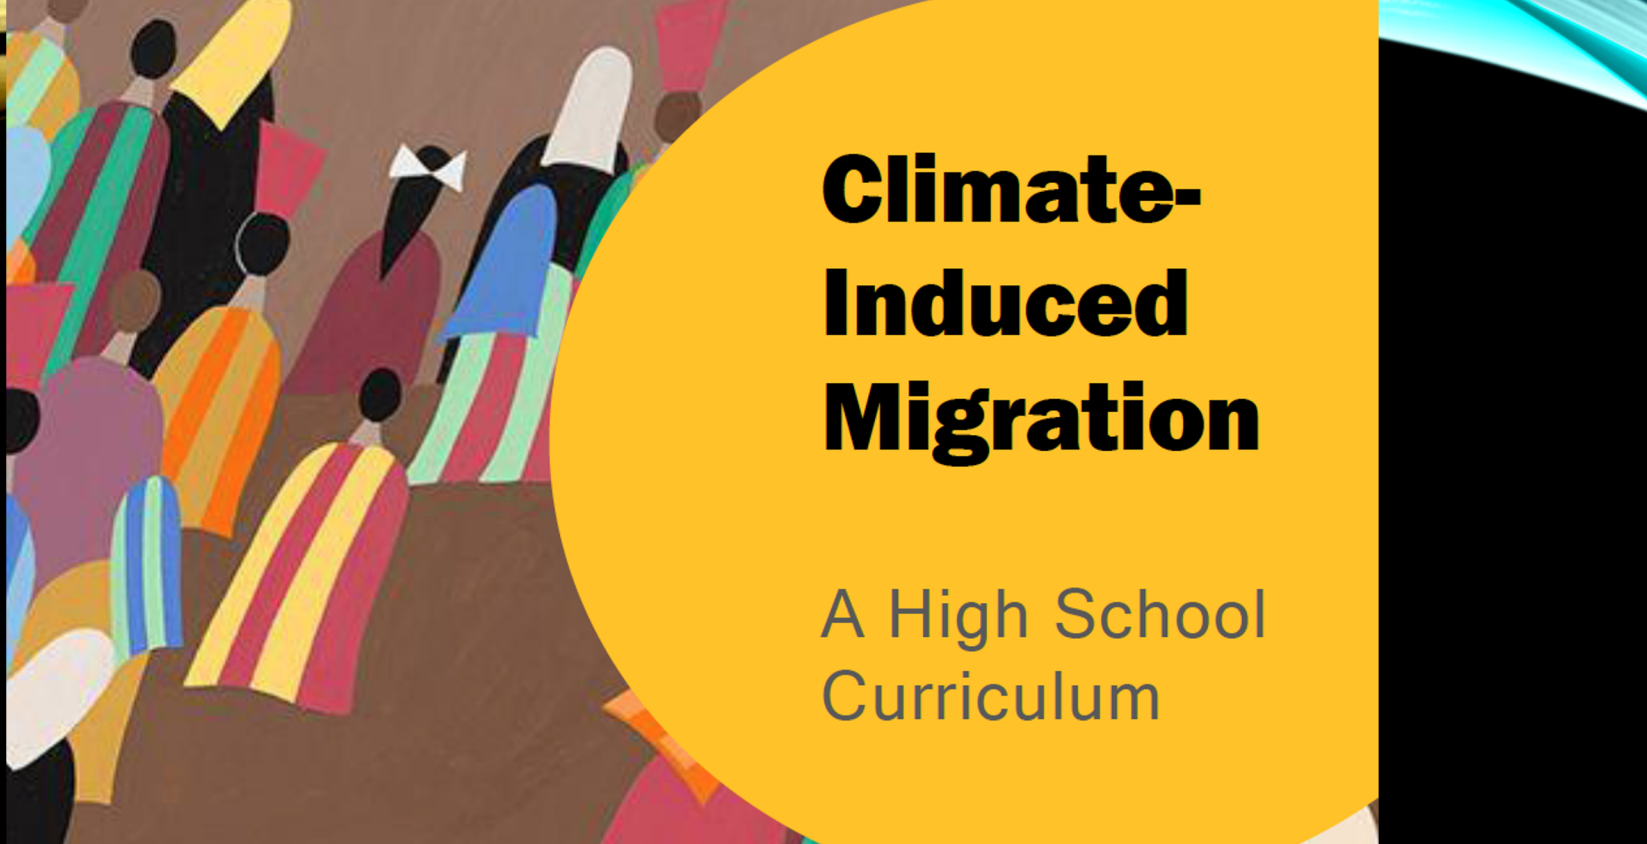

Overarching Learning Objectives:

Gain a greater understanding of climate-induced migration, and how it fits within the broader phenomenon of human migration.

- What is climate-induced migration?
- What causes/contributes to climate-induced migration?
- Who is disproportionately responsible for the phenomenon of climate-induced migration?
- Who is disproportionately at risk of becoming a climate-induced migrant?

Climate-Induced Migration

A High School Curriculum
